

Installing IPA File (App) to iOS Device

To be able to install the test mobile app on your iOS Device, your device's **UDID** has to be registered in my Apple Developer Account.

Instructions on how to get your UDID

1. Install iTunes in your computer.
2. Plug in your iOS Device in your computer. Your device should show up under **Devices**.
3. Click on your device and it will show an **icon** just under the menu bar. Click on this icon to show the details of your device:

4. Click on the **Serial Number** value several times to display the **UDID**:

iPhone 11

Capacity: 119.15 GB**Phone Number 1:** +33 [REDACTED]**Phone Number 2:** n/a**Serial Number:** [REDACTED]**iOS 15.3.1**

Your iPhone software is up to date. iTunes will automatically check for an update again on 19/03/2022.

[Check for Update](#)[Restore iPhone...](#)

Backups

Automatically Back Up☒ iCloud

Back up the most important data on your iPhone to iCloud.

☐ This Computer

A full backup of your iPhone will be stored on this computer.

☐ Encrypt local backup

This will allow account passwords, Health, and HomeKit data to be backed up.

[Change Password...](#)**Manually Back Up and Restore**

Manually back up your iPhone to this computer or restore a backup stored on this computer.

[Back Up Now](#)[Restore Backup](#)**Latest Backup:**

Your iPhone has never been backed up to iCloud.

 Please email this UDID to maria-rosario.sebastian@edu.dsti.institute

Once I have registered your UDID to my *Developer Account*, I will send you the link of the IPA file. This link has to be copied and pasted onto **Safari Browser** of your iOS Device, if it is NOT your default browser. It will prompt you to install the application:

NOTE: This app is a sample app that was taken from the tensorflow example github repository: https://github.com/tensorflow/examples/tree/master/lite/examples/object_detection/ios

P.S.

Here is an alternative way to install, which I have yet to explore: <https://medium.com/healthify-tech/install-ipa-over-the-air-dropbox-36857d6add37>
